

CH 2-LITE STRIP SERIES

DESCRIPTION

A 2-light fluorescent strip fixture suitable for a wide range of applications. Uses instant start T8 or rapid start T12 lamps.

Mounting: Fixtures designed for surface, chain and stem hanging. Can be installed as individual units, in continuous rows or in conjunction with other housings.

CONSTRUCTION

Housing: Die-formed 21-gauge cold rolled steel. Cover: Snap-on die-formed white steel.

Finish: Phosphate coated, baked white enamel with 85% reflectivity.

ELECTRICAL

120v, 60Hz, solid state electronic ballast, direct wire, UL/CUL listed for dry or damp locations.

OPTIONS

Add "CAP" for grounded cord & plug
Add "CO" for convenience outlet
Add "ILS" for in-line switch on cord
Add "D" for damp location listing
Add "CS" for chain hanging set
Add "277" for 277v wiring
Add "L" for low ballast factor rebate-eligible fixture
Add "H" for high ballast factor
