

CLP UNBREAKABLE PUFF CLOUD

DESCRIPTION

Our unbreakable ceiling puff with soft rounded edges hangs just below the ceiling line creating a floating effect. The Puff lens is manufactured with Dur-illum 2200™, a high strength plastic that outperforms standard white acrylic with high transmission and smooth uniform color. UV protection is molded in to the lens. White plastic mounting clips eliminate the shadows and sharp edges of older metal clips. Uses 2 or 4 T8 fluorescent lamps.

Mounting: Designed for ceiling surface mounting in corridors, suites, and kitchens.

CONSTRUCTION

Housing: Die-formed 21-gauge cold rolled steel with baked white enamel finish.

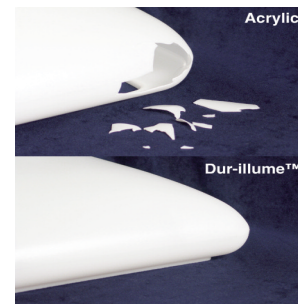

Diffuser: Molded Dur-illum 2200™ lens, hangs off housing with 4 plastic clips.

ELECTRICAL

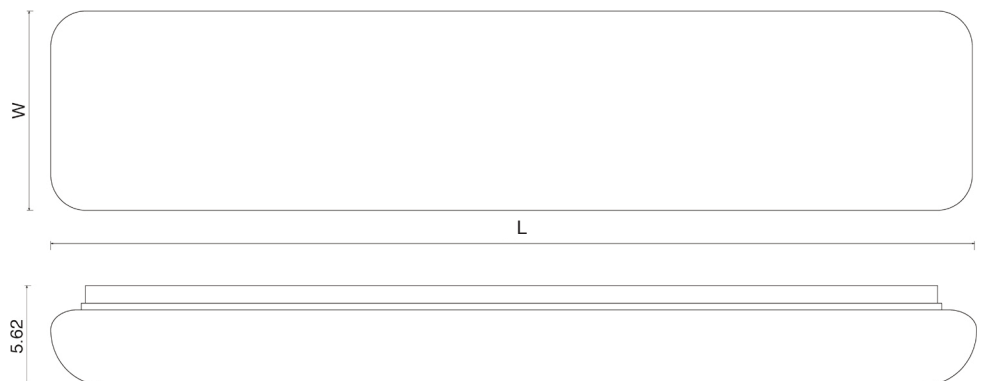

Completely wired with solid state electronic ballast, ready to direct wire install over standard ceiling junction box. 120v, 60Hz, UL/CUL damp location listed.

OPTIONS

Add "EB" for Emergency Battery
Add "277" for 277v wiring
Add "L" for low ballast factor rebate-eligible fixture

Dur-illum 2200™ strength virtually eliminates all damages in shipping, handling, installing, and maintenance compared to previous delicate puff lighting diffusers.
