

TUBE GUARD SLEEVES

STANDARD COLOR SLEEVES

Badger Lite offers a full selection of color sleeves for use on T8 or T12 fluorescent tubes in any situation where subtle coloring is needed. We also offer clear sleeve guards for T5, T8, and T12 tubes to protect from broken glass in all types of applications from food handling to storage areas and everything in between.

We also offer UV blocking 4ft and 8ft sleeves for a variety of sensitive installations such as printing, clean rooms, photo handling, etc. Choose the level of protection you need:

CLR

Standard clear polycarbonate sleeve
Blocks UV from 0 - 370 NM

UV-Y
